# the key.....

- Good Management Systems lead to:
  - i] compliance
  - ii] safe and healthy work force
  - iii] all stakeholders interests protected
  - iv] a profitable business

# she'll be right mate!!!

- No systems in place for the management of your business
- knowledge is power
- system must suit your business

# so what is self accreditation

- generally required to belong to an industry specific programme
- auditable systems and procedures to be in place
- demonstrate compliance

TODAY'S TRUCKIES  
GIVING 100%

# Certificate of Industry Accreditation

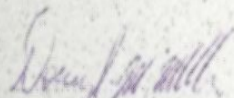

*This is to certify that*

## **Bunker Freightlines**

*has demonstrated compliance with  
industry accreditation safety and  
professionalism standards of the  
Truck Safe Program*

*on this day 17 April 1997*

*Accreditation No 44*

  
CHAIRMAN - INDUSTRY ACCREDITATION COUNCIL

  
BY CHAIRMAN

\$\$\$'s

- do your homework
- there will be a cost
- look at the benefits

# the stakeholders

- industry bodies
- the regulators
- financiers
- the general public
- staff
- shareholders

# But.....

- a note of caution
- no silver bullet
- requires hard work
- requires commitment
- level playing field

# Win Win

- good business
- regulatory benefits
- business advantage
- an industry that takes responsibility for its action
