# Be Certain of One Thing

The IRTENZ 2006 Convention will serve up the most critical issues that face today's road transport industry. One place, One Time, One Event, that could change the way you run your future business

## Day 1 - Tuesday 15th August

### COMPLIANCE - 'TOO MUCH OR TOO LITTLE'

The government perspective of where it's come from, what it has achieved and where it's headed. This session will address a number of areas within today's compliance regime:

- **Vehicle Inspectors and compliance officers** – are they targeting risk or making quota?
- **Vehicle Inspection agencies** – how can we achieve consistency between stations? Are they a service provider? How are they accountable?
- **Vehicle/Trailer Manufacturers** – has compliance taken away our innovative spirit? Does compliance offer us opportunity as well as cost? Has it seen the devaluation of experience?
- **Transport Operators** - what has been the impact on the fleet? Will compliance offer benefits to outweigh the cost?

### OPERATOR SAFETY RATING SYSTEM

A close look at costs and benefits of accreditation and self certification. This session will present a Government overview of the current situation and bring local and international experience to the forum. Papers will include:

- National Transport Commission (Aus) Study by TERNZ
- International operator experience (Bunker Transport)
- Local Operator perspective (Fonterra)

### Opening Cocktail Party

## Day 2 Wednesday 16th August

### PERFORMANCE BASED STANDARDS

'Fiction or Falcly'

Where are we going with it, what's been done so far. Has it worked anywhere? Again we search for answers and present a variety of viewpoints, including:

- Australian perspective – NTC study
- International perspective (John Woodrooffe)
- Australian program (Les Bruzza)
- LTNZ overview

### TECHNOLOGY AND BUSINESS

Will investment in new technology return benefits to the operator with compliance, self certification and PBS? Presentations include:

- Electronic braking systems – new developments
- Driver training – new techniques and their impact on both driver and vehicle performance
- Automatic Transmissions (Scania)
- Intelligent Access Program (Chris Konditsiotis, TCA)
- Latest in Trailer Design (S.O.E. UK)

### Convention Dinner and Awards Presentation

## Day 3 Thursday 17th August

### NEW RULES

The latest updates on new Rules and their implementation.

- Brake Rule
- Load security
- Work Time and Log book

### OPEN FORUM

- Panel Session to discuss key issues and their effect raised during the Convention.

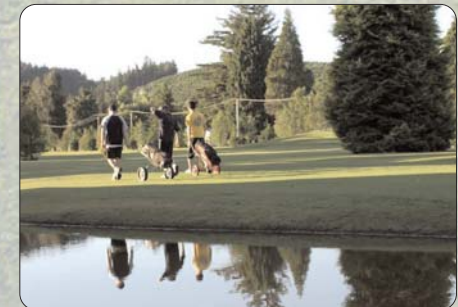

## ACCOMODATION/BOOKINGS

The **Wairakei Resort** is holding 153 rooms for conference delegates at a special price of \$135.00 (including GST) per night.

Contact Isobel Syme on 0800 Resort (737 678) extension 8691 or email [isoble@wairakei.co.nz](mailto:isoble@wairakei.co.nz)
